

Open Position:

Part-Time Back End Developer

Overview

Location: Fully remote

Compensation: \$80.00 CAD / hour

Time commitment: Up to 20 hours/week, with max. 560 hours over a 1-year contract term

Application deadline: Apply by October 5, 2022

Start date: Beg/Mid-October 2022

[Hypha Worker Co-operative](#) (Hypha) is looking for a part-time developer to work on back end software development for the Distributed Press API.

Hypha is a co-operative, so we do things [a little differently](#) (and a little better, we like to think). Ideally, you are excited about participating in a co-operative, building the solidarity economy, and engaging in discussions on rethinking social structures and the politics of technologies.

Qualifications and skills we are looking for

- Experience with Node.js and JavaScript programming
- Basic or greater knowledge of Linux command line
- Experience setting up web services on Linux
- Experience with systemd and Ansible (not mandatory)
- Knowledge of HTTP server API design patterns / security practices
- Experience working with, supporting, or contributing to an open source project
- Experience with collaborative development and remote working tools, such as source code repositories, bug trackers, project boards, chat, and videoconferencing
- Ability to work independently and participate collaboratively in a distributed team environment
- Strong planning, analytic, and problem-solving skills with the ability to multitask and meet deadlines
- Excellent time management skills and the ability to prioritize work
- Clear and compassionate oral, written, and public communication skills
- 3+ years of related work experience
- Demonstrated commitment to the principles of equity and diversity with alignment on Hypha's [mission and values](#)

We understand that no one person has all the qualifications listed here, so please apply if you have relevant experience and are interested in this role. To see more of the technologies we use and how we work together, check out our [GitHub organization](#).

About Distributed Press

Distributed Press is an open source publishing tool for the World Wide Web and DWeb. COMPOST, a magazine about the digital commons, allows Distributed Press to do design research and live test the tool directly with stakeholders — creators and their audiences. This project will leverage dweb protocols to improve content discoverability and archivability, fight political censorship and misinformation, while supporting offline distribution and new monetization channels to make Distributed Press a contender to some of the top web2 website building platforms. Distributed Press is a project of Hypha.

About Hypha Worker Co-operative

[Hypha Worker Co-operative](#) is a non-profit worker co-op based in Tkaronto (Toronto). We collaborate with communities to build better relationships with technology. Hypha's work includes p2p and blockchain-based projects, and technical capacity development and governance consultation for co-operatives, collectives, and decentralized communities. You can read more about our mission, vision, and values, and how we work together in [our organizational handbook](#).

As a remote-first organization that strives toward sustainable livelihoods for all our members, we accommodate flexible schedules and work arrangements. We are committed to [the co-operative principles](#), which provide a pathway for all employees to permanent membership. We are looking to build long-term relationships with contractors who are potentially interested in joining our co-operative as a member in the future.

If working openly on value-driven technology is your jam, let's talk!

Location

Remote position, with a preference for Tkaronto-based contractors.

Compensation and hours

Hourly rate of \$80.00 CAD

Work to be completed Monday to Friday with an average of 10 hours per week.

Hours and contract term

This is a part-time contract for 12 months, with the opportunity to revisit depending on need.

Process to apply

To be considered, please email us at hiring@hypha.coop with the following **before October 5, 2022**:

- CV (ideally as a PDF)
- Brief covering statement (in email body is fine) outlining why you are a fit for the position, this could include:
 - Description of a recent project
 - Links to a portfolio or previous work
 - Mention of how you heard about this position (e.g., job board, listserv, etc.)
- If you would like us to keep your information on file for future opportunities

Hypha strives to cultivate collective and inclusive growth in our communities, and to support meaningful livelihoods for our members. We offer a respectful and open workplace. Hypha upholds accessibility, diversity, and equal opportunity in our hiring practices. Requests for accommodations can be made at any stage of the recruitment process.
